## PASSED A DULL

WALL STREET HAD LITTLE BUSI-NESS WORTHY OF NOTE.

Price, McCormick & Co.'s Failure an Unsettling Feature - Local Business Shows a Brilliant Outlook.

At New York Saturday money on call was

easy at 2 per cent. Prime mercantile paper, 31/641/2 per cent. Sterling exchange was steady, with actual for demand and \$4.84%@4.84% for sixty days;

bills, \$4.84%. Silver certificates, 60@61c; bar silver, 60%c; Mexican dollars, 471/2c. At London bar silver was 27%d an ounce.

The export metal movement from New York for the week ended Saturday was \$880.260 in silver bars and coin and \$1,478,020 in gold. Specie imports for the same period were \$59,831 in silver and \$22,593 in gold. Dry goods and merchandise imports at

the port of New York were valued at \$9,-

The weekly statement of the associated New York banks, issued Saturday, shows the following changes: Surplus reserves, increase......\$2,257,100 pecie, increase ...... 1,783,300

Circulation, increase...... 342,500 The banks now hold \$18,812,325 in excess of the legal requirements.

The Financier says: "The majority of the clearing house banks of New York city did not improve their standing to an appreciable extent last week, despite the heavy inflow of funds to this center. The gains in cash were made for the most part by several large institutions, whose special operations also account for the changes in other leading items. Thus the increases in the loans and deposits of one bank alone were fully as large as the total advances made by all the banks. Viewed in a broad light, however, the statement must be regarded as favorable. Money is being received in New York from all interior points, and the gain made last week was puble the average for any similar period this month. How long this inflow of currency is to continue cannot be decided offhand, but the effect is witnessed in an extremely easy market, offerings of time funds being made with great liberality over the rest of the year. The demand does not indicate any great pressure for accommo dation. Both loans and deposits are now much higher than at any previous period this year, and the cash reserve is in excess of 27 per cent., fully up to the average for the year. The strong position of the banks lies in the fact that they have outstanding sterling loans in large amounts and in case a sudden demand arose there would be no difficulty in securing as much money from abroad as was needed, despite the fact that the movement of specie is now in the opposite direction. The gold export problem, to tell the truth, is not regarded as important, and the outward consignments last week are looked upon as special transactions more than anything else. Up to the present time the greater shipments have mounted to about \$10,500,000, but since April 26, when gold engagement began, the cash holdings of banks have increased about \$7,000,000. In the month just elapsed loans also have expanded nearly \$18,500,000 and deposits about \$24,600,000. Despite the cash shipped to Europe and extra amounts required as reserve against new deposits, the actual reserve is about as high as it was thirty days ago. In view of a showing like this the export question loses more or less of its intricacy. The only conclusion is that gold was forced abroad in order to give the banks some employment for their money, that is to say, in loaning to foreigners. The crop season this year bids fair to be complicated by the new bank issues of money, but so far this has not been a factor in the general situation. The redemption of the 2 per cent. bonds com-

settlement of the gas war, and Union Bag,

preferred, recovered from the weakness

caused by forced sales Friday. The bank statement was about as expected, and was without influence on the market. The stock market has been dull all week, and operations have been almost entirely ofessional hands. Commission houses in Wall street are almost deserted, and no orders of importance come to them by mail or telegraph. Several of the professional stock operators whose dealings have been on an extensive scale have joined in the summer exodus to Europe, and, so far as indications show, have withdrawn from an active share in the dealings in stocks. With the public out of the market and the proessional trading relegated to operators on a small scale there has been little to reflect the general condition of business except as the dullness is a negative indicafon of the doubt and confusion regarding the trade outlook. Speaking broadly, the movement of prices has been contrary to that of last week. That is to say, the sears have covered largely in the industrial stocks which they sold short last week, and the railroad stocks have lost ground on the week. On some days the trading in Sugar and Tobacco alone made

up more than half the total dealings in all AN UNSETTLING INFLUENCE. The failure of Price, McCormick & Co. did not cause anything like demoralization in the market, but it had a decidedly unsettling effect on speculation. The confusion and uncertainty caused by this event had the effect of rather increasing the apathy of the stock market. The firm's difficulties were recognized as due to cotton speculation, and the closing out of its contracts, under the rule of the Stock Exchange, disclosed that the recent movement of prices there had little to do with the failure. The fact that a large proportion of the firm's contracts in stocks were on the short side served to check the rapid

fall of prices which set in when the failure The growing plethora of money has no nfluence in stimulating speculation. This is because the phenomenon is clearly due the decreasing activity of trade. Comincrease of stocks and the growing neces-sity for cutting down production and mak-ing further concessions in prices in order to invite a resumption of buying, gain in rankness and extent over those heard neretofore. In the iron trade, particularly,

WEEK in only slight additions to new business. This leads the Iron Age, speaking as the organ of the trade, to advocate a sharp curtailment in the production of iron and steel. The same authority intimates a foreknowledge of an extensive movement in that direction already determined upon. Cutting down production means decreased employment for labor and a falling off in buying power. It will arouse fears of strikes and disorder. The more cheerful view is that the present hand-to-mouth buying must give place to the making of extensive contracts to meet known requirements as soon as the turning point in prices becomes defined, and only a faint effect on sentiment will be seen as long as the intervening crisis remains to be passed. Slackening of trade, a descending scale of prices for commodities and reduction of output mean decrease in business profits, and corporation securities are not likely to be in demand until the tendency is arrested Even the growing abundance of money and consequent pressure of capital for profitable employment have had no perceptible effect business in bankers' bills at \$4.57%@4.87% on the securities markets. The strengthening process which has been going on in the foreign money market has at length reposted rates, \$4.851/4 and \$4.881/4; commercial sulted in bringing down the official disthe Bank of France, and the private discount rates in London and Paris have fallen below the New York rate, thus withdrawing the attraction to American capital. Even the Berlin money market grows easier. The easier conditions in the English money market are the outgrowth of liquidation safely effected, which must have resulted in reduction of speculative infla-tion of prices and thus added to the soundness of industrial and business conditions Money continues to flow to New York as it goes out of employment in the interior, and the subtreasury yields a small return to the New York money market on government operations. The calling of the gov-ernment extended 2 per cents. is not expected to affect the money market, as the funds to redeem them will be drawn from government deposits in the national banks. Dealings in bonds have been small and unimportant. The twos, refunding, when issued, declined 1/2, and old fours and fives

1/4 in the bid price. The twos advanced 1/4.

Trade of the Week Satisfactory-Prices, as a Rule, Steady.

In the week ended May 26 trade reached expectations. Weather conditions were highly favorable and the traveling salesmen report having sold good bills. The outlook for business next month is more favorable than usual, as in April and May retail dealers in all lines did not stock up heavily, thinking prices might break On the contrary, as a rule, on all staple articles standing the advance in sugars, the margin is has increased the demand very perceptibly. Coffees are going out freely, as are teas, which usually find better sale in warm weather. Canned goods are dull, with stocks well re-Canned goods are dull, with stocks well reduced. Eggs and poultry are in good request at prices quoted, which are fully as high as the average in May for years past. Strawberries are in good supply, but poor stock sells slowly, while choice is in good request. Oranges, lemons and bananas are moving freely. New crop vegetables are in large supply and selling well at the low prices now prevailing. The provision market is active, with cured meats in active request. The wool market is quiet, with prices steady and receipts falling off. Drugs are firm, and oils and paints are moving well.

The local grain market shows a little more activity on better receipts. All cereals are in good request at prices quoted, as furnished by the secretary of the Board of Trade:

NO STARCH IN THE PITS

AND LOWER.

Early Firmness in Wheat Quickly Dissipated-Provisions Were Inactive and Closed at Declines.

CHICAGO, May 26.-The grain markets ended a stagnant session, to-day, in rather weak condition, wheat a shade, corn %@1/2c and ots 1/201/4c under yesterday. Provisions closed 71/2012c down.

The wheat market was almost too small to be visible to the naked eye. The market opened firm because the Northwest still ket opened firm because the Northwest still sides, \$7.12½. Bacon steady; boxed extra was without sufficient moisture to support shorts, \$7.37½; clear ribs, \$7.50; clear sides, the seed. Later, principally out of sheer \$7.621/2. Timothy seed steady at \$2@2.20 inactivity, the market eased and the half session wound up in an inanimate condition. The pit was all but deserted most of the day. Cables were easy. Primary receipts were 581,000 bu, compared with 652,000 bu last least year. Minneapolis and Duluth reported 503 cars, against 275 last week and 662 a year ago. Local receipts were 27 cars,

none of contract grade. Clearances in wheat and flour were equal to 797,000 bu. July opened at 671/4@67%c to 67%c, declined to 66%c and closed a shade under yesterday at 67c.

Corn was weak at the start. It grew weaker as the session progressed and at the end was at its weakest. This was because of increased farmers' deliveries and the favorable weather, combined with a slack demand. In this pit as well as in that occupied by the wheat traders, there was a very lonely, scattering bunch of traders. July sold between 374c and 364c, closing %@4c under yesterday at 36%c. Local receipts were 306 cars. With corn and wheat dull, little could expected of oats. Those who expected little were not disappointed. There was a fair cash trade, but the speculative trade was flat. July ranged from 21%@21%c to 214c, and closed 1604c down at 214@21%c.

Receipts here were 307 cars. Provisions dragged throughout the session and towards the close became decidedly weak. A weaker hog market, the grain dullness and weakness were the factors. July pork closed 12½c under yesterday at \$11.32½; July lard 10c lower at \$6.82½, and July ribs 7½c depressed at \$6.50. The Board of Trade, instead of "e telegraph companies, will hereafter c I ct the quotations on the exchange floor. This, nowever, will not interfere with the transmission of the quotations by the telegraph companies as heretofore. Estimated receipts Monday: Wheat, 50 cars; corn, 656 cars; oats, 365 cars; hogs,

33,000 head. Leading futures ranged as follows: Articles. Open-7 -371/4 21¼ 21% 21¼ 21% 21¼ July .\$11.40 \$11.321/2 \$11.321/2 6.55 6.55

Cash quotations were as follows: Flour dull bakers, \$2@2.40. No. 3 spring wheat, 621/201 Receipts—Flour, 12,000 brls; wheat, 36,000 bu; corn, 223,000 bu; oats, 350,000 bu; rye, 2,000 bu; barley, 25,000 bu. Shipments—Flour, 7,000 brls; wheat, 2,000 bu; corn, 29,000 bu; oats, 146,000 bu; barley, 7,000 bu.

Philadelphia Record.

On June 1 we are to have the census enumerator. You may think he's a cheeky he will merely be obeying orders when he asks you questions which might otherulative demand. The market rallied par- wise be regarded as impertinent. A man ator may not get around to you until several days later, but that won't make any difference. You may be dead when he comes, but if you were alive on June 1 down you go as a part of Philadelphia's population, for officially his visit is made on the first day of the month. If you should must still remain a spinster, living at the residence of her parents. Should you have 5.70c; powdered, 5.40c; granulated, 5.30c; a baby after June 1, and the census taker calls subsequent to the event, the child doesn't exist in his eyes. Absolutely nothing can happen to you between the first day of June and the day the census man

May Reverse the Court's Opinion.

There is a greater power than the Su-preme Court, and that is the people of Kentucky, and they will more than likely reverse the decision of the Supreme Court.

The receipts this week were 350 smaller than last week, 200 smaller SAFE DEPOSITS. than the same week a year ago, and the receipts so far this year are less than 700 smaller than the same period last year. In keeping with liberal receipts and lower prices elsewhere the trade for the week opened with an easier feeling, and the con-

ditions were very favorable for a reduction in prices. Therefore dealers were agreeably surprised when, later in the week, there was quite an active demand, and current prices were strong compared with last week for all kinds, and the fat light cattle no doubt sold higher in some instances. Shippers should bear in mind that the grass cattle season is approaching, when they may expect that there will be a material reduction in prices and a wider spread between the light weight and strictly corn-fed heavy export grades. Quota-

tions: Good to prime steers, 1,350 lbs and upwards ..... \$5.25@ 5.70 Fair to medium steers, 1,350 lbs and upwards ..... Good to choice 1,150 to 1,300-lb steers ..... Fair to medium 1,150 to 1,300-lb Medium to good 900 to 1,100-lb 4.60@ 4.90 Good to choice feeding steers .... 4.40@ Fair to medium feeding steers.... 3.90@ 4.25 Good to choice helfers..... 4.50@ 5.00 Fair to medium heifers...... 4.00@ 4.40 Common to light heifers...... 3.60@ 3.90 old cows.....

Good to choice cows..... 4.15@ 4.65 Fair to medium cows...... 3.50@ 4.00 Veal calves ...... 3.50@ 7.00 Heavy calves ...... 3.00@ 5.50 Prime to fancy export bulls ...... 3.85@ Good to choice butcher bulls..... 3.35@ 3.75 Common to fair bulls...... 2.75@ 3.25 Good to choice cows and calves.. 35.00@50.00 Common to medium cows and calves ...... 15.00@30.00 Hogs-Receipts, 5,000; shipments fair. The hog market opened with only a fair inquiry from outside sources, but there was a good demand from local packers, and for the most part sales were on a basis of

steady prices compared with yesterday. In a few instances, however, it was claimed that there was 21/2c decline. Unsatisfactory late reports from other markets caused a weaker feeling here, and some late sales were probably 5c lower. The receipts this week do not show any change compared with last week, and a decrease of about 11,000 compared with the corresponding week a year ago. Thus far this year there is a decrease of about 100,000 compared with the same period last year. For the week ending yesterday local packers bought a total of 20,600, and the shipments during the same period were about 3,700. There has not been much fluctuation in prices the past week, and the movement has been toward a higher level. The high time in the week was at the close, when the average was fully 10c higher than the opening, which was the low time. The demand has been best from local packers, and shippers have been unable to get many orders. Quotations:

Good to choice medium and Mixed and heavy packing...... 5.20@5.274 Good to choice light weights..... 5.20@5.274 Common to fair light weights..... 5.10@5.20 Common to good pigs..... 4.25@5.00 Roughs ...... 4.50@5.00

Sheep-Receipts light; shipments none. There were only a few fresh arrivals of sheep, and, as usual at the close of the week, the trading was quiet at barely steady prices. The receipts this week were about 100 larger than last week, and 1,100 smaller than the same week a year ago. Thus far this year the receipts are 1,800 smaller than the same period last year. The marketing the past week has been just about large enough to accommodate the local trade, and consequently there was not much competition from outside sources. The basis of prices has been in keeping with other markets, and shippers have been well pleased with results. There was the natural advance of the season and reduction in values, the change being principally on milk lambs. At the close of the week, which was the weakest time, there were no spring lambs selling above \$7, no clipped lambs above \$5.50, yearlings above \$5 or old

ommon to medium sheep...... 3.00@3.75 Bucks, per 100 lbs...... 2.50@3.50

Transactions at the Interstate Yards. INTERSTATE STOCKYARDS, INDIAN-APOLIS, May 26. - Cattle-Receipts very light; shipments none. There was practically nothing done in the market to-day. The general market was steady and the closing was quiet. Quotations: 

Good to prime butcher steers, 1,100 Bulls, common to fair..... 2.75@3.26 Hogs-Receipts, 1,000; shipments, 920. The market opened about steady. Salesmen

were asking yesterday's prices, but later most sales were made at a decline of 21/20 to 5c. The general market was weak at the closing to the extent of 5c. Quotations: Good to choice medium and heavy.\$5.25@5.30 subdivision outlots 45, etc........... 3,100 Mixed and heavy packing....... 5.15@5.25 Good to choice lights.................. 5.10@5.15 Fair to good lights ..... 5.00@5.10 Common to fair pigs...... 4.25@4.70 Heavy roughs ...... 4.25@4.70

Sheep-Receipts none; shipments none. The market was very quiet. The week closed with steady prices, but with light sort of person, but, really, he isn't, for receipts as compared with several weeks

Spring lambs ......\$6.00@8.00 Good to choice yearlings..... 5.00@5.50 Common to good sheep...... 3.50@4.35 Bucks, per head ...... 2.00@4.00

Elsewhere. KANSAS CITY, May 26.—Cattle—Receipts, Market unchanged. Receipts, for the week,

Market unchanged. Receipts, for the week, 21,-000. Desirable grades have been steady; inferior a shade easier; the first receipts of Texas grassers sold at satisfactory prices. Heavy natives brought \$4.50@5.60; stockers and feeders, \$4@5.50; butcher cows and heifers, \$2.40@5; canners, \$2.75@3.40; fed Westerns, \$4@5.25; fed Texans, \$4@4.85; Texas grassers, \$3.65@4.05.
